Tres, tres Cool.

Brand new addition to the best-selling Cool Camping series ... **Cool Camping: France**

Cool Camping: France is the most stunning camping guidebook yet. Featuring a hand-picked selection of the very best campsites and camping experiences to be found across France, it's a rich resource of information and inspiration.

This book uncovers those hard-to-find countryside camping gems, well away from the Eurocamp crowds. Featuring spectacular mountain sites in the Alps and Pyrenees, lazy, shady riverside hang-outs in the Loire and Dordogne, smart chateau camping in Brittany and balmy outdoor treats on the Côte D'Azure, this is the essential new guidebook for connoisseurs of continental camping.

From cosy six-tent snugs in Armagnac to a stylish, sustainable 600-pitch tentopolis in Brittany, this book will bring camping enlightenment. It contains shady riverside spots, remote unknown countryside hideaways – even a cliff-top site with an incredible view of the French Riviera and sparkling blue Mediterranean. How about a tipi or a tree house? A Romany roulette, a vintage Airstream trailer or an African desert tent? They'll all in *Cool Camping: France*.

The selections in this book are for small, countryside, environmentally-conscious places or those with cracking views or something unique or special. Many of the best – like Cool Camping's Limousin tipis or the organic fruit-farm pick in the Pyrenees – are privately owned. But the weird and wonderful Huttopia chain of sites brings a refreshing new take on multi-site corporate ownership too. Wherever you choose to stay, rest assured that Cool Camping would happily return to every single one of these sites, so consider them a personal recommendation from Cool Camping to you.

Like the other titles in the winning *Cool Camping* formula, *Cool Camping: France* contains in-depth reviews, practical info and hundreds of colour photos.

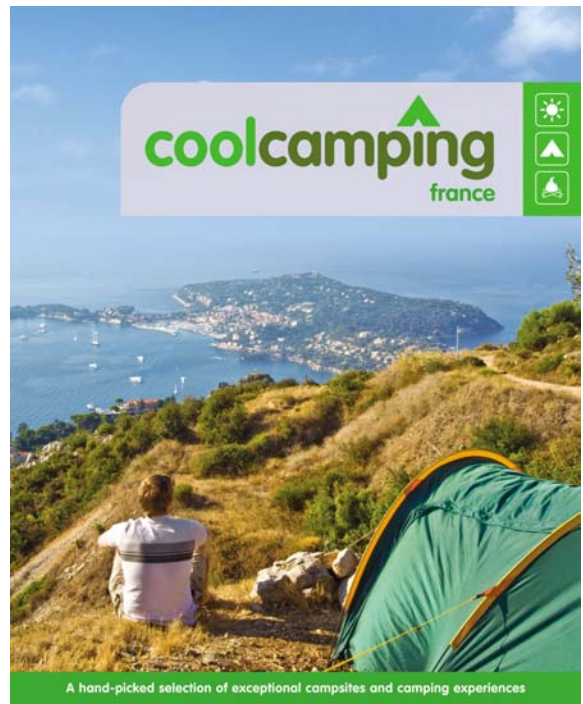

Cool Camping: France published by Punk Publishing

Publication Date: 14 March 2008
